PINELLAS COUNTY NEWSPAPER INDEX

PINELLAS COUNTY, FLORIDA

WPA OFFICIAL PROJECT 665-35-3-244

SPONSORS

The Pinellas County Newspaper Index was prepared by WPA Official Project 665-35-3-244, which was sponsored by the Board of County Commissioners of Pinellas County, Florida.

Co-sponsors were the City of St. Petersburg, The St Petersburg Independent, The St. Petersburg Times, and the Clearwater Sun.

During the progress of the work, needs for special equipment, materials and labor have arisen. These have been made available by interested citizens and agencies and have been reported through proper procedural channels.

The project staff began its work on this activity in October, 1939, and completed the indexing and compilation of the volumes in April, 1941.

HOW TO USE THIS INDEX

An item selected for indexing is known as a citation. Every citation is classified under one of the twenty-one major subject headings: Arts, Industry, Politics, Religion, Science, etc.

Following every citation, is an index of the page, column and date of the particular newspaper in which it is printed, e. g. 7-3; Mh 6, 1933, means that on page 7—column 3 in the issue of March 6, 1933, the complete account may be located.

The name of the newspaper and the subject of the contents of the page, is carried at the top of each page. In order to locate quickly a particular event—determine under which of the major subject headings it is classified; then turn to the index in front of that volume and locate under one of the sub-headings. e. g. Accidents

Automobile
Drowning
Marine—etc.

Automobile accidents are chronologically arranged according to the place of occurrence—City—Pinellas County—State—Nation or International—

This plan is generally followed throughout.

The names of the months are abbreviated as follows:

January	Ja	July	Jl
February	F	August	At
March	Mh	September	S
April	Al	October	O
May	My	November	N
June	Je	December	D
